Sixteen million dollars for rivers and harbors and \$400,000 for the enlargement of the new Navy is typical Democrat

Under President Cleveland's administration this country imported plans and equipments for war vessels. Under Harrison foreign naval constructors have found it to their advantage to go to school to us. +

In 1869 the standing armies of Europe numbered 6,958,000 men. Now they number 12,563,000, and experts estimate that they will have grown to 22,429,000 by the close of this century, provided, of course, that they do not break loose and destroy each other before that time.

The new life put into the tobacco in-dustry has stimulated farmers in the South to a larger cultivation of the weed. In the meantime the Representatives in Congress from that section are planning to knock the tobacco growing business in the head by repealing the McKinley duty on it.

Two British syndicates undertook in turn the construction of a railroad across the Mexican istimus and gave the enter-prise up in despair. A Yankee company then took hold of the work and has suc-cessfully carried it through. Count an-other triumph for American enterprise and plack +

In 1890 there was a deficiency in the postal revenue of \$8,200,323. Under Mr. Wanamaker's administration this has been reduced to an estimated deficiency \$8278,401 for the fiscal vear 1894, and this has been done notwithstanding the expensive improvements made in all branches of the postal service.

Mr. Harrity-for which read Grover Cleveland—is eager to ascertain how minety Democratic Representatives in the next Congress who have not yet disclosed their position on silver coinage are likely to vote on that question. By answering these legislators will doubtless hear something to their advantage. A telegram from Hon. R. B. Lovel an nounced the safe arrival of himself and wife in Washington City Wednesday night. Miss Mary E. Wallace has gone to Fert Leaf to visit Miss Mary Kabler who just re-turned home after a pleasant visit here.

Bourke Cockran's cloquent tribute to President Harrison—"You, who stand before the world to-day a high type of the clitzenship of this country, a heroic defender of its integrity, an ornament to its magistracy"—shows the difference between a manly opponent and a cowardly enemy like the average Mugwump. Misses Susie Fox and Mary Mitchell of Mayslick have returned home, having spent two months visiting the family of Captain and Mrs. Geisweiter at Pine Bluff, Ark.

Zebulon B. Vance, the veteran Senator of North Carolina, twiried his eyechasees nervously and looked at the ceiling in his room when asked what he thought of Mr. Cleveland's Cabinet. After a moment's reflection he replied: "I approve of some of the appointments and disapprove of others. I think that is a prevalent sentiment among Democrats." Lowther, Parliamentary Secretary of the Foreign Office in the last Salisbury Cabinet, said that Protection was making rapid progress in favor among Englishmen. Howard Vincent said that the much-abused McKinley Tariff had in 1892 increased the exports of the United States by \$170,000,00° and the imports by \$200,000,000. At the same time England's exports had fallen off \$180,000,000.

ODO.

The McKinley act has undoubtedly benefited the United States at the expense of Great Britain; and its repeal by the incoming administration would be as much a blessing to our great industrial rival as it would be an injury to our-selves. AT a late meeting of the Fair-trade Club in London Howard Viscery de-elared that the McKinley Tariff had, in 1892, increased the exports of the United States by £34,000,000 and the imports by £40,000,000. In the same time Eng-land's exports had fallen off £36,000,000. Such is the ruinous effect of the Mc-Kinley Tariff. Such is the Kinley Tariff.

A STUDENT of comparative politics points out the fact that the Government of the United States is among the older of elvilized Governments now existing in the world, since most European countries have been to a considerable degree revolutionized since the first election of GEORGEA WARLINGTON to the Predidency. OTTAWA, Ont., March 3.—In the commons Thursday afternoon Mr. McCarthy been made by Great Britain to the resolution passed last session requesting that Canada be given power to appoint diplomatic representatives at Washington. Mr. Foster stated that when he and the late Premier About were in England they had discussed the matter and were informed that serious difficulties lay in the way of allowing Canada to appoint representatives at foreign capitals with ambassadorial functions. They had also been given to understand that the British government would be of Canadian interests through the ministers to foreign capitals and might consider the appointment of a Canadian agent at Washington.

Mr. Laurier asked that the correspondence between the Canadian and British governments with reference to the matter. Mr. Laurier them said: "If so the government is in reference to the matter.
